DESCRIPTIONS

• The series is specially designed for applications requiring higher brightness.

• The LED lamps are available with different colors, intensities, epoxy colors, etc. Superior performance in outdoor environment

APPLICATIONS

· Status indicators.

· Advertising Signs

Commercial use.

Back lighting

USAGE NOTES

• The ultra bright LED is an electrostatic insensitive device, so static electricity and surge will damage the LED. It is required to wear a wrist-band when handling the LED. All device, equipment, machinery, desk and ground must be properly grounded

• When using LED, it must use a protective resistor in series with DC current about 20mA
